

## LISTE DER IN WIEN (ÖSTERREICH) GESCHÜTZTEN ARTHROPODEN-ARTEN

Die nachfolgende Liste dient der Hilfestellung für Aussteller bei "Insektenschau und -tausch" der Arbeitsgemeinschaft Österreichischer Entomologen in Wien. Sie soll v.a. den auswärtigen Gästen die rechtliche Situation in Wien erklären. Der Veranstalter übernimmt jedoch keine Verantwortung für allfällige Fehler bei der Erstellung der Liste. Gültig sind in jedem Fall die offiziellen Listen der Behörden.

### ABKÜRZUNGEN UND ERKLÄRUNGEN

**WASV = Arten geschützt durch die Wiener Artenschutzverordnung und**

**FFH-IV = Arten des Anhang IV der "Fauna-Flora-Habitat-Richtlinie" der Europäischen Union**

(= Richtlinie 92/43/EWG des Rates vom 21. Mai 1992 zur Erhaltung der natürlichen Lebensräume sowie der wildlebenden Tiere und Pflanzen)

Tiere der Wiener Naturschutzverordnung und FFH-Richtlinie Anhang IV dürfen in Wien weder im lebenden noch im toten Zustand feilgeboten, erworben, übertragen oder verwahrt werden. Ausgenommen sind Tiere, die in Gefangenschaft gezüchtet wurden (das muss der Händler schriftlich bestätigen!).

**CITES-A, CITES-B, CITES-C = Arten der Anhänge A, B und C des Washingtoner Artenschutz-Übereinkommens**

CITES-Arten des Anhanges A dürfen nicht gehandelt werden, außer in seltenen Fällen mit CITES-Papieren. CITES-Arten der Anhänge B und C bedürfen einer schriftlichen Bestätigung des Händlers, dass sie sich rechtens in der EU befinden. Bei der Ausfuhr aus der EU braucht man ebenfalls CITES-Papiere.

## LIST OF ARTHROPOD SPECIES PROTECTED IN VIENNA (AUSTRIA)

The following list serves as an aid to the exhibiting persons during the "Insect Exhibition and Exchange" organized by the "Austrian Entomologists' Association". It shall explain the local legal situation in Vienna, especially to foreign visitors. The organiser does not take responsibility for possible mistakes during compilation of the list. Valid are solely the official lists by the respective authorities.

### Acronyms and explanations

**WASV = Species protected by the Vienna Species Conservation Laws and**

**FFH-IV = Species in Appendix IV of Directive 92/43/EWG by the European Union**

Species listed in the Vienna Species Conservation Laws and/or in Appendix IV of Directive 92/43/EWG by the European Union must not be traded, purchased, alienated, or kept, neither dead nor alive. Excepted are only specimens reared in captivity, which must be documented by the trader.

**CITES-A, CITES-B, CITES-C = Species in Appendices A, B, and C of the Convention on International Trade in Endangered Species of Wild Fauna and Flora**

Species listed in Appendix A of CITES must not be traded at all, except for rare cases with CITES-documents. Species listed in Appendices B and C may only be traded with a written cover certificate by the trader stating that specimens were legally introduced into EU. Export from EU requires also a certificate.
